Fridays - Dress as your Future Career

Focus Block Review

Over the past few months the staff have observed several challenges with the successful operation of Focus Blocks due to considerable numbers of students not registering in time or at all, coming to Focus late, and coming to class unprepared for academic engagement, which is the main intent of the program.

As a result, we will be implementing a review of Focus blocks as to whether the program should continue. Potential options include significant changes or cancelling Focus blocks altogether and returning to 80 minute classes.

Focus has significant advantages for the students and the school community, but this is only true if everyone is using it as intended. Stay tuned for further updates, and in the meantime ensure you are signing up and using Focus correctly.
